High Water Pressure Alert!

If your home's water pressure is too strong it has the potential to do harm to nearly every fixture in your house.

While you might think that the more pressure you have is better, it is actually quite the contrary. Too much pressure can potentially lead to stress leaks and pipe damage.

High water pressure can cause a lot of problems, from dripping faucets or toilets that will not shut off, to shortened water heater life. Appliance hoses like those on your washing machine and dishwasher can explode and flood areas of your home causing massive damage.

High water pressure can also cause a condition known as water hammer or noisy pipes. This is the thumping or growling noise you may hear in your pipes especially at night when water pressure is at its highest.

You can also have water pressure that is too low. Maybe water just trickles out of your tap, or doesn't come out at all. You could also have decent pressure on the first floor of your home, but on the second floor it doesn't come out at nearly the same rate. It can be frustrating.

Our technicians can check your water pressure to see if it is too high. From that test you will know exactly how much your plumbing system is pressurized. Should an issue exist, we can help you eliminate it safely & effectively.

Call Steve Huff Plumbing at 423-239-8361 to have this potentially dangerous problem taken care of today!

HAPPY NEW YEAR

1 The first New Year's celebration dates back 4,000 years. Julius Caesar, the emperor of Rome, was the first to declare January 1st a national holiday.

JANUARY

2 January was named from Janus, the Roman god of beginnings. Janus had two faces and could look forward and backward simultaneously.

3 The NYC Times Square ball was originally made of wood and iron and weighed 700 lbs.

4 Today, the Times Square Ball is made of Waterford Crystal. It is 12 ft. in diameter and weighs 11,875 lbs!

5 NYC started the ball drop after fireworks were banned in 1907.

6 Polar Bear Plunge Day is also January 1st. This is when thousands of brave souls in the US and Canada take a dip in the freezing waters of their local lake, ocean, river or pond.

67% of North Americans make New Year's Resolutions, **ONLY 9%** report completing their resolution successfully

Top Resolutions:

Lose Weight / Exercise More **49%**
Save More Money / Pay Off Debt **33%**
Education / Career Goals **26%**
Habit Changes **16%**

RECIPES

10-Minute Tiramisu

INGREDIENTS

- 1 cup (8 fl. oz/225 ml) heavy whipping cream
- 1 cup (8 oz/225 g) mascarpone cheese, room temperature (see substitute idea below)
- ⅓ cup (2½ oz/71 g) sugar
- 1 teaspoon vanilla extract
- 1 tablespoon Amaretto liquor or Brandy (optional but yummy!)
- 2 cups (16 oz/450 ml) espresso or STRONG coffee at room temperature
- 1 pack Lady Fingers (Boudoir biscuits/Savoiardi. (Look for eggless if needed)
- Cocoa powder for dusting the top

Preparation

1. Beat whipping cream, sugar, and vanilla until soft peaks form.
2. Add in mascarpone cheese and Amaretto (if using) and continue to whip to stiff peaks.
3. Dip lady fingers in coffee (and brandy if using) and place in an 8×8 pan to make the first layer – you can fit about 7 cookies in each layer. Don't let them soak as they will fall apart, just a quick dunk in the coffee is enough.
4. Spread half of the whipped cream mixture on top of first layer of lady fingers. Repeat process with second layer of lady fingers and cream mixture.
5. Dust the top of dessert with cocoa powder using a sieve. Refrigerate for about 2-4 hours (it gets even better in the fridge and is a perfect make-ahead dessert).

Winter's Here

From the Desk of Steve Huff

Welcome 2019!

I can't believe another new year is already upon us. Before getting caught up in a new year with new beginnings and new goals, I would like to take a moment to take a peak in the rear-view mirror and reflect. As I look back, I feel proud of our accomplishments. 2018 was quite a year for us. We were able to grow our company, serve more customers than ever, and help our community—all while having some fun along the way.

I want to say thank you to my incredible team. Without their hard work and dedication to you, our customers, we would not have been able to exceed our 2018 goals. I also want to thank you for your business and continued support! We are grateful for good customers like you, who make our work satisfying and enjoyable.

As for 2019, we look forward to continuing to offer you excellent, award winning service. We wish you a prosperous and Happy New Year!
